## REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

The School Board's budget for the coming year calls for the raising of practically the same amount of money as was raised last year and the year before that.

The amount asked for to support elementary schools (\$3,243.00) is a few dollars above the \$5 tax which must be raised to secure state aid, this tax being \$3,200.15.

We can now be pretty certain that our expenditures for elementary schools for the year ending next June will not exceed the amount of this tax, so no state aid will be needed for the current year. The cost of our elementary schools is so close to the amount of the \$5 tax that it is very difficult to say in advance, from year to year, whether we shall qualify for state aid or not. This year, for example, if we had paid \$50 more for teachers' salaries we would have received a reimbursement of \$22.87 from the state.

So long as we cannot support satisfactory schools on less than the \$5 tax it is important that we make certain that \$5 per \$1,000 of equalized valuation is raised each year. An unforeseen emergency, such as the need of another school or another transportation route may make it necessary to spend an amount considerably in excess of the \$5 tax. In that case, it would be unfortunate if we had not qualified for state aid.

The increasing cost of high school tuition has to be met entirely by local taxation, as the laws provide no state aid for any items except approved expenditures for the support of the **Elementary** schools.

In the Attendance Table the low per cent of attendance at the South Road School is caused for the most part by the great amount of sickness during November, December and January of last year. For the first 22 weeks of the current school year the per cent of attendance at South Road is 93.42 and at the Heights,

95.80. The Heights School has had almost no tardiness this year, while the South Road School, at the present rate, will have about the same amount as last year.

The Reading system introduced at the Heights last year is now used also at South Road.

Children in a city school system may have a different teacher every year without any change in the teaching staff. In one-room rural schools a child may have only one teacher during his entire elementary school course. As a general rule, I believe he should have more than one teacher. This can be arranged without losing good teachers from our town by occasionally transferring teachers from one school to another as was done in Salisbury last September.

Respectfully,

GEORGE W. SUMNER.
